

Sociology AGEC - Program Review Conducted 2007-08

Academic program review is central to the college's overall planning and assessment process. All academic programs are reviewed annually. Programs include academic units that offer certificates and degrees (i.e. nursing) as well as curriculum articulated in the Arizona General Education Curriculum (AGEC) agreement.

The accelerated academic program review process is designed to provide each program area with timely information to assess the strength and weaknesses of program areas. Follow-up reports are made only if an area is determined to be below the college's acceptable threshold.
