GRANTSEEKING AT YC

Yavapai COLLEGE

GRANT PROPOSAL PYRAMID

XIII. Sustainability

X. Evaluation
XI. Reporting
XII. Stewardship

VII. Work Plan
VIII. Budget
IX. Partnerships

VI. Goals and objectives of the project

IV. Background information about applicant and current projects
V. Capacity of organization to implement and successfully complete the project

I. Documented need (supported by data)
II. Alignment with YC Strategic Priorities and Mission
III. Alignment with funder's interests and priorities

The Grant Proposal Pyramid

- Each component of a grant proposal must be connected to the other components

- One way to develop your proposal is to start at the bottom of the pyramid, address all the items on each level, and then work your way upwards

- Building your proposal "from the bottom up" will help ensure that everything in the proposal ties together properly and tells the funder a consistent story about your project

Resources available to help develop your grant proposal – contact the Grants Coordinator to request materials
