Getting Started with

All you'll need to use Skype: a computer with a built-in microphone and an internet connection. For 2-way video, a web cam is also needed.

1. Go to http://www.skype.com

2. Click on the "Get Skype" button, then select the version you prefer.

3. Once you download the program, follow the instructions on the download page for installation and setup

How to install Skype

Step 1	Step 2	Step 3	Step 4
Click 'Save File' to save the Skype Setup Application.	Click the SkypeSetup file in the Downloads window.	Follow the simple steps in the Setup Wizard to complete the installation.	Open Skype and sign in with your Skype Name and password.

Make sure you *check* the box saying you accept their terms and agreements on the first page

Make sure you *uncheck* the box on the second page below your email unless you wish to receive news and offers from Skype

You have successfully downloaded Skype!

Please view the short "Getting Started" for an introduction of how Skype works
