

*Yolande LaFontaine*

---

What I remember most about my time at the YC library is the friendly atmosphere and helpfulness of every staff member. The state of the art of the library where current information is always available. The layout of the library which is very inviting and where one can easily find what they are looking for and if not, the well informed staff members at the reference desk who is always available.

I have come across several libraries since I have left and have yet to encounter one as well setup, maintained and staffed. I really miss the atmosphere of the YC library which made it a pleasure to come to work. Being there was always a pleasure and a welcome change of pace. Interfacing with both the students and faculty members was interesting and fun.
