Fall 2020 Online

College For Kids

We are offering our favorite College for Kids classes this fall, and scholarships are available! Please submit a scholarship application for consideration: www.yc.edu/collegeforkids.

An Artist a Day for Kids (Ages 6-12)

FA20-147CK ● Tue, 10/6 to 11/10/20

10 - 11:30 am ● WebLive

Let's paint some fun art with Artist Jan! We will look at famous artists That catch your eye. Blue Dog, Van Gogh's Starry Night, Dali, George Rodrigue, Picasso & cubism, Dr. Seuss and some crazy animals & more. We look at their techniques and apply them to your own paintings. We even complete a pet/ animal painting in my personal style. Simple, easy & fun! Let's paint together & learn. *Supplies needed for this course - approx. $30 or less for canvas, acrylic paints & paint brushes, pencils, eraser, calk, construction paper.*

Jan Bruso ● $85

Basics of Art for Kids (Ages 6-12)

FA20-148CK ● Tue, 10/6 to 11/10/20

1:30 - 3 pm ● WebLive

This is a great class to help you through life in the art world. You will learn the color wheel, shapes shadows, we will look at the light sources and design pieces that pop off the paper, canvas and more. We will discuss other artists and try to recreate some of their pieces with the above tools. You will have fun with Jan while learning how to apply the fundamentals to all art in everything we look at. With public school systems removing art from the schedules, this class is a must for children wanting to explore art. They will walk away with knowledge that will apply to their art through life. *Supplies are needed – approx. $30 or less as you may have some of these supplies on hand - canvas, acrylic paints, color pencils, paint brushes, pencil, eraser, paper.*

Jan Bruso ● $85

Earth's Treasures (Ages 9-12)

FA20-149CK ● Wed, 9/30 to 11/18/20

3 - 4:30 pm ● WebLive

The earth holds many treasures. Become part of the team of earth scientists who uncover such treasures. As you identify each gem and fossil, you can also discover where each is found naturally, how it came to be there and what makes it the treasure we know it to be. *You will receive your own box of treasures along with a journal, most supplies, and guidance on how to make a meaningful collection for your own treasure museum. An Online experience with expert earth scientists! (No class 11/11.)*

Dawn Miller-Walker & Diane Vaszily ● $115

Beginning Guitar (Ages 12-17)

FA20-150CK ● Tue, 9/29 to 11/10/20

5 - 6 pm ● WebLive

This is a beginning guitar class that will start with tuning the instrument and go from simple melody playing to learning chords. Some basic theory will also be taught so students can understand and start to play-by-ear. Students will be introduced to a variety of music styles. Adam's intuitive and humorous style puts students at ease and eager to participate in the fun. But equally important, also teaches the fundamentals of creativity in music. *Students must have their own guitar (or Ukulele). Contact the instructor if you need guidance obtaining an instrument. All music handouts are included in tuition and emailed to students.*

Adam Speth ● $75

Exploring Guitar (Ages 8-11)

FA20-151CK ● Mon, 10/5 to 11/9/20

3:30 - 4:30 pm ● WebLive

In this fun and entertaining class, students will learn how a guitar works and how to play some basic melodies that include movie theme songs and some funny kid's songs. Fundamentals of music will be introduced. Timing and rhythm exercises will also be covered in a fun game-like fashion. Each student will truly have an adventure in music! *Students must bring their own guitar (or Ukulele). Contact the instructor if you need guidance obtaining an instrument. All music handouts are included in tuition.*

Adam Speth ● $70

Flights of Imagination: Sewing Felties (Ages 9+ - for all ages, young at heart)

FA20-152CK ● Mon/Wed, 10/26 to 11/18/20

5:30 - 7:30 pm ● WebLive

Join us on live Zoom meetings and sew your own Animal Felties! Kids and adults will learn basic hand sewing skills along with learning how to follow a pattern and create their own. Every week, new Felties will be made! *Each student will receive a Feltie box containing the supplies that will be needed for creating and bringing to life 2-4 Feltie animals or creatures. Items not included in Feltie box: students will need to supply their own scissors to cut thread, and a dark marker. Please register at least one week prior to start date to receive your Feltie box. (No class 11/11 - instead will meet on Thurs, 11/12.)*

Jennifer Shinohara ● $150

Origami: The Art of Folding (Ages 12+ - for all ages, young at heart)

FA20-153CK ● Tue/Thu, 10/6 to 10/29/20

5:30 - 7:30 pm ● WebLive

Join us on live Zoom meetings, as we discover the wonderful Japanese art of creating creatures by folding paper in the form of Origami. From simple paper balloons to complex dragons to touching on Geogami, students will learn basic folding techniques and how to apply them. We will also learn to follow a pattern both visually and on paper. *Students will receive an Origami box with the paper and supplies needed for folding plus extra to fold and experiment with. Items not included in the Origami box: students will need to supply their own ruler. Please register at least one week prior to start date to receive your Origami box.*

Jennifer Shinohara ● $150

Edible Explorations (Ages 10-15)

FA20-154CK ● Tue/Thu, 10/6 to 10/22/20

11:30 am – 1 pm ● WebLive

FA20-155CK ● Tue/Thu, 11/3 to 11/16/20

11:30 am – 1 pm ● WebLive

Students will explore the science of food as they prepare a variety of nutritional meals. The intention of the class is to support Science and Math explorations as the student gains cooking skills and techniques. The timing of the class is such that the student will be preparing his or her lunch each class. Students will be encouraged to use their imagination by taking a basic recipe and customizing it to fit their tastes and/or pantry item inventory. Each meal with provide alternatives ingredients to accommodate dietary restrictions (vegetarian, vegan, gluten free, dairy free).

Lori Prouty with Cathy Nowlin ● $220
