## **TRIO Educational Talent Search (ETS TRIO)**

On Saturday, September 24, 2022, ETS students from Mayer Middle School attended the Flagstaff Festival of Science. Students visited the Virtual Reality lab at the Cline Library at NAU to tour the Pyramids of Giza and learned to channel their inner Indiana Jones to become virtual archeologists.

Four stations gave students a comprehensive view of the pyramids from a fly over perspective, a tourist tour of the outside and access to the inner chambers of the pyramids.

After enjoying lunch at Wheeler Park in Flagstaff, the students engaged in experiential learning activities at the "Science in the Park" during the festival. ETS middle school students experienced how to hold a cockroach, become a doctor for the day with a clip-on ID, play catch with a robot, race cars using solar power, extract DNA from a strawberry, and much more.
