

## CT and MR Certificate Programs Prerequisites

Applicants are certified radiologic technologists possessing an inventory of pre-existing knowledge and skills gained through an entry-level radiography educational experience that has been reinforced through professional practice.

Students must apply to and be admitted to Yavapai College *prior* to applying to the Computed Tomography or Magnetic Resonance certificate programs. Please go to [www.yc.edu](http://www.yc.edu) to complete the college admission procedure.

### Clinical Education Requirements and Eligibility

Applicants do not need to be currently employed at the facility where they will receive clinical training. Your clinical coordinator will place you in clinical rotations based on employment status with the facility. If you are not employed or unable to receive training with your employer we will place you into clinical rotations.

All students will be required to follow compliance guidelines for each individual site/system they are sent to.

### Clinical Affiliations

The college has clinical affiliation agreements with the following institutions:

- Yavapai Regional Medical and Imaging Centers
- Northern Arizona Healthcare
- Northern Arizona Veterans Administration
