**Vision**

Sedona is a community that nurtures connections between people, encourages healthy and active lifestyles, and supports a diverse and prosperous economy, with priority given to the protection of the environment.

**Six Major Outcomes**

Over the next 10 years, Sedona will work to achieve six major outcomes that will define and distinguish our overall community character.

- **Commitment to Environmental Protection**
  Sedona has become an international model for the sustainable balancing of environmental protection and human wants and needs. To protect our unique setting for future residents, Sedona’s city government and residents have worked in tandem to achieve and promote sustainable living, and to develop best practices for maintaining sustainable business and recreational philosophies.

- **Housing Diversity**
  Sedona has fostered the building of different housing types to provide more options for all ages and income levels by using innovative public policies and programs and nurturing partnerships with private developers. This housing diversity has attracted more young people, families, and professionals, to become a vital part of our community life.

- **Community Gathering Places**
  Sedona has developed a network of formal and informal community gathering spaces that create unexpected encounters and ignite interactions between people, and forge a sense of renewed community connections. They provide a forum for the exchange of ideas, and promote individuals’ understanding of one another’s culture and humanity.

- **Economic Diversity**
  The Sedona economy is more diversified, thus becoming healthier, and more robust, and less dependent on tourism. Business owners and professionals choose to live and do business in Sedona for our quality of life, focus on people, the arts, and the environment. Our public-private partnerships have provided much needed technological and business resources.

- **Reduced Traffic**
  Sedona has reduced traffic by working with developers and property owners to create mixed-use walkable areas and districts, while limiting the construction of new roads. Sedona has built new sidewalks, trails, and bikeways to enhance travel options between existing neighborhoods and commercial areas, and provide cross-community connections. We have a robust transit system that offers residents and visitors an alternative to driving.

- **Access to Oak Creek**
  Sedona has created environmentally sensitive park and trail access to Oak Creek - one of the community’s greatest treasures - to provide educational and recreational opportunities for residents and visitors.

**Sustainability**

An Inclusive Goal of the Plan
Sustainability is a fundamental goal of this Community Plan. Sustainability as envisioned by the Community Plan is not just about reducing our impact on the environment, but is equally about maintaining and enhancing the connections and ties that bind individuals and form Sedona’s community fabric. Sustainability in the Sedona of today and tomorrow will lead to policies and actions by government and citizens that enhance our natural and built environments, create a diversified economy, improve individual and collective quality of life, and create an educated, equitable and prosperous community.

**Vision Themes**

Each vision statement below presents a picture of what Sedona will look and feel like in 2020 and beyond.

- **Environmental Stewardship**
  Sedona is known for practices that respect and protect the natural environment, and as the responsible caretaker of one of the world’s greatest treasures.

- **Walkability**
  We enjoy the option of walking - for pleasure or purpose - from neighborhoods, shops, restaurants, transit, and trailheads linked by safe, practical, and enjoyable routes.

- **Improved Traffic Flow**
  We travel efficiently throughout Sedona using safe roads, pedestrian and bicycle pathways, and convenient transit.

- **Economic Diversity**
  Sedona has a resilient economy, provides the highest quality of service to visitors, and offers rewarding and diverse employment opportunities.

- **Community Connections**
  We meet - at events and at random - to share experiences, help others, improve our community, enjoy the arts, and celebrate our heritage.

- **Sense of Place**
  We appreciate and respect our unique surroundings that reflect the natural beauty, arts, culture, heritage, and opportunities for physical and spiritual renewal.

**Questions You May Have About the Plan**

**What is a Community Plan?**

The Sedona Community Plan is the expression of the community’s goals and policies for future growth and development. The State of Arizona requires communities to have a long-range general plan that is updated every 10 years. The Community Plan is:

- An expression of the community’s vision and priorities
- A policy guide for future growth and development

**How is the City going to pay for this Plan?**

The Plan itself does not require the City to spend money. The Plan is a policy document that is intended to help guide future City priorities and manage community growth and development. Some of the recommended actions in the Plan will require some money to implement. However, the City Council and ultimately the community’s approval of the Plan do not result in any of the actions being funded. Every year the City prepares a budget that citizens can review and give input on. For projects proposed to implement the Plan, City staff will submit budget requests to the City Council as part of future annual budgets and the City Council will decide whether to approve these requests.

**What does the Plan address?**

- Land Use, Housing, and Growth
- Circulation - Traffic, Parking, Walking and Biking, and Transit
- Environment - Water Resources and Resource Conservation
- Parks, Recreation, and Open Space
- Economic Development
- Community - Community Character, Arts, Culture, and Historic Preservation
- Implementation - Cost of Development and Action Plan

**How will the Plan be implemented?**

The Plan will help guide and prioritize more detailed planning efforts, the preparation of new and updated land use and other regulations, and future City Council budgeting decisions - all of which will have significant public involvement.
