Prescott OLLI Committees

We need to continue to make OLLI a vibrant and active organization. We are a growing organization and have need for volunteers. Find out how the Prescott OLLI wheels turn and how you can fill an empty slot.

Governing Council: There are 11 elected Council members. The Council has the responsibility to keep the members’ interests in mind when providing the services which are the purpose of the organization. The Council has fiduciary and administrative responsibilities, and, through its decisions, sets policy.

Curriculum Committee: Committee members develop learning opportunities, review and approve offerings, encourage, train, mentor and debrief facilitators. With staff, they put together and publish the schedules five times each year. The chair attends Governing Council meetings to present and report.

Policies and Procedures Committee: Committee members periodically review the OLLI Policies & Procedures and the OLLI Bylaws to ensure these documents accurately reflect the motions passed by the Governing Council.

Membership Committee: This committee is responsible for new member orientation; conducting membership surveys; and other supportive membership activities. They meet as needed and report to the Governing Council monthly.

Publicity Committee: They have the task to inform the community about OLLI as a valuable resource, with the help of public announcements, newspaper articles, radio and TV, presentations through a speakers’ bureau available to organizations, and other appropriate communications.

Newsletter Committee: This committee consists of the editor who solicits and/or contributes articles pertinent to OLLI. In conjunction with the OLLI administrator, a newsletter is published electronically, with hard copies available, at specific intervals during the year.

Technology Committee: Based upon interest areas identified by the OLLI technology survey, the technology committee provides technology learning for OLLI members. It is also responsible for revamping the OLLI website and providing technical assistance to facilitators in the use of audio/visual classroom equipment.

Social Committee: This committee plans and organizes all social functions of OLLI including the Annual Meeting and the annual Holiday Party.

Special Interest Groups (SIG) Committee: This committee encourages the formation of new groups. A set format exists for establishing such groups, and the committee works with applicants to provide counsel and support for the successful formation of new SIGs.

Long Range Committee: Provides long range planning to maximize the benefits of OLLI membership, including retrieving or soliciting relevant data, providing analysis, and reporting findings.

Ad Hoc Committees: These are formed as necessary by the Governing Council to address specific tasks and shall have a specific term limit. Interested OLLI members are invited to take part.

Scholarship Committee: Awards full or partial scholarships based on income levels.
