## **Yavapai College—An Affirmative Action Institution**

*Yavapai College is an affirmative action/equal opportunity institution. A lack of English language skills will not be a barrier to admission and participation in the programs of the college. For Yavapai College's nondiscrimination statement, visit [www.yc.edu/aa-eeo](http://www.yc.edu/aa-eeo).*

*Yavapai College es una institución de oportunidades de acción/igualdad afirmativa. La falta de conocimiento del idioma inglés no será una barrera para la admisión y participación en los programas de la universidad. Para la declaración de no discriminación de Yavapai College, visite [www.yc.edu/aa-eeo](http://www.yc.edu/aa-eeo).*

### **Introduction**

Welcome to the Yavapai College Computed Tomography (CT) and Magnetic Resonance (MR) certificate programs. This handbook is designed as a reference source for students in the program. The Yavapai College CT and MR certificate programs are committed to quality healthcare, quality education, and the standards of the profession.

Educational standards are established in compliance with the American Registry of Radiologic Technologists (ARRT). The course of study meets the major content category and subcategories as outlined by the credit distribution for ARRT structured educational requirements in CT and MR.

Because these programs are considered continuing education, it is expected that all applicants are certified radiologic technologists possessing an inventory of pre-existing knowledge and skills gained through an entry-level radiography educational experience that has been reinforced through professional practice.

### **Policy Changes**

It is the policy of Yavapai College CT and MR certificate programs to reserve the right to add, revise, or repeal policies and requirements at any time.

## **Mission Statement**

The mission of the Yavapai College CT and MR certificate programs is to provide quality education that will develop competent, caring, and ethical entry-level CT and MR technologists.

## **CT and MR Program Goals**

- To graduate technologists who possess the clinical competency of an entry-level CT or MR technologist
- To graduate technologists with theoretical knowledge and critical-thinking skills to produce quality studies
- To prepare technologists to successfully challenge the ARRT Post-Primary Certification Exam in Computed Tomography or Magnetic Resonance Imaging

## **Program Philosophy**

The CT and MR certificate programs' staff shares the mission and values of Yavapai College. We are committed to contributing to the profession of radiography through teaching and service. We recognize that students are unique, come from diverse backgrounds, and have individual learning needs. We believe that radiography is an art and a science, and that a sound education curriculum integrates knowledge from the sciences and the humanities. The CT and MR curricula are based on the concepts of competency-based learning.

## **CT Program Learning Outcomes**

The curriculum established by the American Society of Radiologic Technologists (ASRT) for CT is designed to support skill development in specific content areas and to ensure that entry-level CT technologists meet the following general program outcomes.

1. Explain the design of CT scanner generations.
2. Explain how adjusting operator console parameters affects CT image data.
3. Describe the process and the factors that influence data acquisition.
4. Define the tools used and the post-processing techniques needed for image enhancement.

5. Discuss the role and the ethical considerations of the CT technologist in reducing radiation dose including technical factor selection, positioning, and shielding.
6. Discuss factors that affect CT image quality, including artifacts.
7. Perform CT exams as outlined in the competency requirements for post-primary certification of the American Registry of Radiologic Technologists (ARRT) in Computed Tomography.
8. Identify specific organs or structures on a cross-sectional acquired or reformatted CT image.
9. Identify pathologic processes on CT images.
10. Review CT images for quality, accuracy, and completeness.

## **MR Program Learning Outcomes**

The curriculum established by the American Society of Radiologic Technologists (ASRT) for MR is designed to support skill development in specific content areas and to ensure that entry-level MR technologists meet the following general program outcomes.

1. Describe how the MR signal is produced and detected and how the image is acquired.
2. Understand magnetism and magnetic properties.
3. Identify the major hardware components in MR imaging.
4. Explain the functionality of the radiofrequency, gradients systems, and role of coils in image acquisition.
5. Explain intrinsic and extrinsic parameters that affect image quality.
6. Discuss proper screening, patient preparation, use, and adverse effects of MR contrast agents.
7. List parameters related to tissue characteristics that affect image quality, and apply proper pulse sequences in MR imaging.
8. Describe how imaging parameters determine contrast and resolution on MR images.
9. Define the tools used and the postprocessing techniques needed for image enhancement.
10. Perform MR exams as outlined in the competency requirements for Post-Primary Certification of the American Registry of Radiologic Technologists (ARRT) in Magnetic Resonance.
11. Identify specific organs or structures on a cross-sectional acquired or reformatted MR image.
12. Explain the appearance of normal tissue and pathologic processes on MR images.
13. Review MR images for quality, accuracy, and completeness.

## **Technical Standards**

This statement of the Technical Standards of the CT and MR certificate programs at Yavapai College identifies the functional abilities deemed by the director and faculty to be essential to the practice of radiologic sciences. The Technical Standards are reflected in the program's performance-based outcomes, which are the basis for teaching and evaluating all radiologic-sciences students.

Students with disabilities who think they may require accommodation in meeting the Technical Standards of the CT and MR certificate programs should contact the Yavapai College Disability Resources office at 928-776-2085 to discuss the process of identifying reasonable accommodations. Students should seek accommodation advising as soon as possible so that a plan for accommodation can be in place at the beginning of the program. Applicants seeking admission to the CT and MR certificate programs who may have questions about the Technical Standards and appropriate reasonable accommodations are invited to discuss their questions with the Disability Resources office. Reasonable accommodation will be directed toward providing an equal educational opportunity for students with disabilities while adhering to the standards of CT and MR practice for all students.

## Technical Standards

The practice of Computed Tomography or Magnetic Resonance requires the following functional abilities with or without reasonable accommodations.

- **Visual acuity** sufficient to assess patients and their environments and to implement the imaging-services plans that are developed from such assessments.  
Examples of relevant activities:
  - Detect changes in skin color or condition.
  - Collect data from recording equipment and measurement devices used in patient services.
  - Detect a fire in a patient area and initiate emergency action.
  - Draw up the correct quantity of medication into a syringe.
  
- **Hearing ability** sufficient to assess patients and their environments and to implement the imaging-services plans that are developed from such assessments.  
Examples of relevant activities:
  - Detect audible alarms within the frequency and volume ranges of the sounds generated by mechanical systems that monitor bodily functions.
  - Communicate clearly in telephone conversations.
  - Communicate effectively with patients and with other members of the health-services team.
  
- **Olfactory ability** sufficient to assess patients and to implement the imaging-services plans that are developed from such assessments.  
Examples of relevant activities:
  - Detect foul odors of bodily fluids or spoiled foods.
  - Detect smoke from burning materials.
  
- **Tactile ability** sufficient to assess patients and to implement the imaging-services plans that are developed from such assessments.  
Examples of relevant activities:
  - Detect changes in skin temperature.
  - Detect unsafe temperature levels in heat-producing devices used in patient services.
  - Detect anatomical abnormalities, such as infiltrated intravenous fluid.

- **Strength and mobility** sufficient to perform patient-services activities and emergency procedures.  
Examples of relevant activities:
  - Safely transfer patients in and out of bed or wheelchair.
  - Turn and position patients as needed to prevent complications due to bed rest.
  - Hang intravenous bags at the appropriate level.
  - Accurately read the volumes in body fluid-collection devices hung below bed level.
  - Perform cardiopulmonary resuscitation.
  - Transport patients using stretchers or wheelchairs.
  
- **Fine motor skills** sufficient to perform psychomotor skills integral to patient services.  
Examples of relevant activities:
  - Safely dispose of needles in sharps containers.
  - Manipulate small equipment and containers, such as syringes, vials, and ampules, in preparation for contrast-media administration.
  
- **Physical endurance** sufficient to complete assigned periods of clinical practice.
  
- **Ability to speak, comprehend, read, and write English** at a level that meets the need for accurate, clear, and effective communication.
  
- **Emotional stability** to function effectively under stress, to adapt to changing situations, and to follow through on assigned patient-services responsibilities.
  
- **Cognitive ability** to collect, analyze, and integrate information/knowledge to make clinical judgments and manage decisions that promote positive patient outcomes.

## Program Information

### Accreditation

Yavapai College and its programs are accredited by the Higher Learning Commission of the North Central Association of Colleges and Universities. The CT and MR certificate programs are recognized as educational programs that meet the needs of the structured educational requirements necessary for ARRT post-primary certification.

### Program Descriptions

The **Computed Tomography (CT)** and the **Magnetic Resonance (MR)** certificate programs are each comprised of two courses designed as facilitated and self-directed learning for radiologic professionals (post-primary) who are established and presently employed in the field. The programs offer both didactic coursework and clinical-skills experiences necessary to prepare the student to challenge the ARRT Post-Primary Certification Examination in Computed Tomography or Magnetic Resonance Imaging. Each certificate can be completed in one semester. The programs are designed around a model of classroom/online instruction integrated with hands-on experience in a clinical setting that provides an educational foundation and a professional preparation to enter the workforce as an entry-level practitioner upon graduation.

The CT and MR certificate programs are demanding experiences that involve clinical and classroom/online instruction coursework. Students must be adequately prepared to meet the challenge, establish priorities prior to the start of classes, and maintain a minimum 2.5 GPA in the program courses to remain in the program.

Graduates of the programs are eligible to:

1. Receive a certificate in either Computed Tomography or Magnetic Resonance.
2. Take the ARRT Post-Primary Certification Examination in Computed Tomography or Magnetic Resonance Imaging.

## **Ethics Requirements**

Admission to or graduation from the Yavapai College CT or MR certificate program does not guarantee eligibility for the American Registry of Radiologic Technologists (ARRT) Post-Primary Certification Examination. Other eligibility requirements of the ARRT must be met. Individuals with misdemeanor/felony convictions should apply to ARRT for an evaluation of examination eligibility prior to admission to this program. Request a pre-application review form by contacting the ARRT:

<https://www.arrt.org/pages/resources/ethics-information>

651-687-0048, ext. 8580 | 1255 Northland Drive, St. Paul, MN 55120-1155

## **Confidentiality of Student Records**

The program maintains a file for each applicant and student that contains documentation related to admission and progression in the program. The Yavapai College CT and MR certificate programs follow the College guidelines for confidentiality of student records as required by the Family Educational Rights and Privacy Act of 1974 (FERPA).

## **Program Requirements**

### **Professional Liability Insurance**

The CT and MR certificate programs carry professional liability insurance for activities conducted by its faculty and students.

### **Student Health/Accident Insurance**

The CT or MR certificate programs do not assume financial responsibility for student healthcare. *It is the responsibility of each student to provide his/her own personal health insurance.* Coverage must be maintained for the entire enrollment period in the programs.

### **Criminal Background Checks**

Criminal background checks are required by clinical-education settings. The program recommends that each student self-report to the program director any criminal activity that may impact eligibility for clinical attendance or certification by the American Registry of Radiologic Technologists.

## **Drug Testing**

Drug testing is required for admission to the CT and MR certificate programs. “For cause” testing will be done as needed, and the YC Radiology Department will make the arrangements. No advance notice will be given. Please refer to Appendix B for more specific information.

## **Basic Life Support (BLS) for Healthcare Providers**

All CT and MR students must have valid, *current* BLS for Healthcare Providers *based on their employer’s certification requirements*. **Applicants should meet this requirement as a condition of employment with their clinical facilities.**

Students who do not have current BLS for Healthcare Providers certification may not participate in clinical experiences and will be considered absent. Students must remain BLS-certified throughout the program.

## **Current Healthcare Insurance**

## College Information

### Academic Advising

Academic advising is available to all students seeking admission to the programs. Contact the following offices to speak to an advisor:

Prescott Campus:	928-776-2106
Verde Valley Campus:	928-634-6510

### Advising Process

A student whose weighted grade total falls below 75% will meet with the instructor to discuss possible factors contributing to low performance and will also meet with the Radiology program director to develop an Education Improvement Plan. The program director will review the student's overall performance for the semester and discuss areas that need improvement.

If during the second evaluation period in the semester (i.e., mid-term), the student's weighted total is less than 75%, the student will meet with the Radiology program director to re-evaluate the plan for improvement. The student *must* take the Education Improvement Plan to this meeting. This will be done within 10 days of the posting of the grade.

### Alternate Counseling Services

1. The Academic and Career Advising office provides workshops on services, career exploration, personal concerns, and academic problems.
2. Special Services: free tutors, peer counselors, and personality inventories
3. Learning Center: free services for spelling, vocabulary, test-taking, study skills, and math

## Grading

Learning outcomes are defined in each course syllabus. Clinical competencies are identified on the Clinical Evaluation Tool. Classroom assignments and examinations are given a percentage score or letter score. Grades are not rounded.

<u>Percentage Score</u>	<u>Letter Grade</u>
89.5-100%	A
79.5-89.49%	B
75.0-79.49%	C
64.5-74.99%	D
Below -64.49%	F

For all CT and MR courses, a cumulative grade of "C" or better is required to progress to the next course in sequence. All CT and MR courses are graded "A" through "F" without an "S" or "U" option.

### Incomplete Grades

A grade of "I" may be requested by a student and will be posted to the student's permanent record only at the end of a semester in which the student has done the following:

1. Completed a significant majority of the work required for the course while maintaining a "C" average for work submitted and capable of completing the remainder of the required work for this course.
2. Experienced extenuating circumstances which prevent completion of the course requirements.

It is the exclusive responsibility of each student receiving an Incomplete to be in communication with the instructor and complete the course(s) by the deadline established by the instructor, the maximum of which can be 45 days. The instructor will then initiate a Change of Grade form. If the instructor is no longer available, the student should contact the supervising instructional division dean. If the work required is not completed by the deadline established by the instructor, the grade specified by the instructor will be posted to the permanent record.

## Discrimination

Yavapai College is committed to providing an environment that is free of any harassment based on gender, race, national origin, age, religion, disability, or any other status protected under federal law.

Any complaint of harassment will be treated in a confidential manner to the extent feasible. All students and employees are assured that they will be free from any and all retaliation for filing such complaints.

Sexual harassment includes unwelcome sexual advances; requests for sexual favors; and other verbal, visual, or physical conduct of a sexual nature. No supervisor or other employee may indicate in any manner, either explicitly or implicitly, that an employee's, student's or applicant's refusal to submit to sexual advances will adversely affect that person's employment, any term or condition of employment, or academic progress. Sexual harassment also includes unwelcome sexual flirtations; advances or propositions; verbal abuse of a sexual nature; unnecessary touching of an individual; sexually degrading words used to describe an individual; any display in the workplace of sexually suggestive objects or pictures; sexually explicit or offensive jokes; or physical assault, where the conduct has either the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment.

Employees and students should consult Yavapai College Prohibited Harassment Policy 10.08 (<https://www.yc.edu/v5content/policies/docs/1000d/1008-harassment.pdf>) and the Student Code of Conduct (<https://www.yc.edu/v5content/student-services/codeofconduct.htm>) to resolve any allegations of discrimination, including sexual harassment. For further clarification, contact Human Resources at 928-776-2217. Yavapai College will not tolerate retaliation of any kind against employees or students based upon their allegations regarding discrimination or harassment. If employees or supervisors engage in harassment or discrimination, they will be subject to immediate discipline, including possible termination.

Conversely, employees and students should keep in mind that these allegations of harassment and discrimination are potentially very serious to the person charged; and while such allegations should be made wherever warranted, they should be made with accuracy and veracity.

## **Plagiarism**

Plagiarism is defined as submitting any academic work which is not entirely the work of the student, deliberately or accidentally. This can include, but is not limited to, such practices as not giving proper credit to a source; expanding someone else's work without giving proper credit; adopting another's work as one's own (including the copying of print or electronic media); directly using someone else's ideas without giving proper credit; and deliberately changing selective words to misrepresent someone else's work as one's own. Web link:

<https://www.yc.edu/v5content/teaching-and-elearning-support/students/integrity.htm>

## **Attendance**

Attendance at class, labs, and clinical assignments is a student obligation and is critical to a student's ability to perform in the program. Because a strong correlation exists between class attendance and success in the program, attendance is taken at the beginning of each lecture. Should an absence be necessary in a required class, lab, or clinical assignment the student will be held responsible for all material presented in that class. Habitual absence from any of these meetings may necessitate a program director-initiated withdrawal from the course.

## **No-Call/No-Show**

A no-call/no-show occurs when a student fails to attend a scheduled lecture and does not notify the instructor within a reasonable time frame (not to exceed 1 hour after the scheduled start time). The same applies to a scheduled clinical time: The student must notify the instructor and the clinical site not more than 1 hour after the scheduled start time. The first incident of no call/no show will result in disciplinary action and a reduction of one full grade level in the courses missed. The second incident will result in action that may lead to a mandatory withdrawal from the program.

Grade Reduction:

First no-call/no-show within 1 year

Withdrawal from Program:

Second no-call/no-show within 1 year

## **Punctuality**

The CT and MR certificate programs do not tolerate tardiness. At the scheduled start time of a class, students are expected to be seated and ready to learn. Students who arrive after attendance has been taken will be marked as tardy. At the scheduled start time of a clinical experience, students are expected to be prepared and ready to work. Arriving late or being unprepared is disruptive and considered unacceptable in a professional environment. Students who are habitually late will be counseled by a program official. Continued tardiness will result in disciplinary action.

## **Clinical Education**

The following links explain the American Registry of Radiologic Technologists (ARRT) competency requirements for Computed Tomography and Magnetic Resonance post-primary certification.

### **American Registry of Radiologic Technologists (ARRT) Competency Requirements for Computed Tomography**

<https://www.arrt.org/docs/default-source/discipline-documents/computed-tomography/computed-tomography-clinical-experience-requirements-2017.pdf?sfvrsn=2>

### **American Registry of Radiologic Technologists (ARRT) Competency Requirements for Magnetic Resonance**

[https://www.arrt.org/docs/default-source/discipline-documents/mri--primary/mri-clinical-experience-requirements2020.pdf?sfvrsn=b0e407fc\\_6](https://www.arrt.org/docs/default-source/discipline-documents/mri--primary/mri-clinical-experience-requirements2020.pdf?sfvrsn=b0e407fc_6)

## **Confidentiality**

The Health Insurance Portability and Accountability Act (HIPAA) regulates confidentiality and privacy issues. Protection of patient information is both a legal and professional responsibility. All information related to a patient must be treated as confidential. This information may be in written, verbal, or other forms. Students are expected to maintain confidentiality in a professional manner and must sign a confidentiality agreement, which is retained in their file. Under no circumstances will patient identification information be revealed or discussed in class activities, image critiques, or presentations. Failure to comply with this policy will result in disciplinary action which may include mandatory withdrawal from the CT or MR certificate programs.

## **Clinical Attendance**

Students must complete 240 hours of clinical education for CT or MR. The requirement of clinical education is considered necessary to complete the competencies for eligibility to take the American Registry of Radiologic Technologists Post-Primary Certification Examinations in CT and/or MR.

Students who are ill or have an emergency and are unable to report for a clinical assignment must personally notify both the clinical instructor and program faculty (i.e., clinical coordinator) prior to the start of the scheduled shift. Absences must be made up before the end of the semester in which they occur. Make-up time is scheduled at the discretion of the clinical instructor with permission of the clinical coordinator.

In the professional environment punctuality is mandatory; students should be present and ready to work at their assigned start time; failure to be engaged at the start time will count as a tardy—no exceptions. Chronic absenteeism and tardiness will result in disciplinary action and a lowering of the clinical semester grade.

If a student has excessive absences and late occurrences (tardiness) from clinical assignments, it will affect the clinical grade. Students are allowed two (2) late occurrences/absences per semester, regardless of the reason, before it affects their clinical grade. More than two absences or late occurrences will result in a 5-percentage-point drop in the clinical grade for each occurrence in that semester.

### **Clinical-Education Site Orientation**

All students shall attend/complete a clinical education site-specific orientation prior to their clinical rotation. Additionally, students will receive an individual department-specific orientation from their recognized clinical instructor or a designated staff technologist. Safety guidelines pertaining to staff and patients are included in these orientations.

### **Clinical-Education Activities Tracking**

Clinical hours, competencies, and student-performance evaluations are documented on the program's web-based application, Trajecsys. This application is accessible and available on the internet at each clinical education site. It is mandatory for all students to clock in and to clock out each day of their clinical rotation without exception. Clocking in and out must be completed on the computers at the clinical site and will be tracked by IP addresses. The tracking application is used to monitor and document various program requirements that include:

- Time Clock – documented daily & submitted in Canvas weekly after being signed by a technologist
- ARRT Procedure Logs – submitted in Canvas weekly to show progress of repetitions.

- Affective Evaluations
- Clinical-Education Site Evaluations

Under no circumstances will a student be allowed to sign in for another student. Signing in for another student constitutes fraud, and *both* students will be dismissed from the program for falsification of records.

## **Circumstances That May Lead to Immediate Dismissal of a Student**

### **Classroom and Clinical Education**

Students will behave in a professional manner at all times. The Yavapai College CT and MR programs reserve the right to suspend or dismiss a student from the program if a student demonstrates unprofessional conduct. In addition to the *Yavapai College Student Code of Conduct*, students in the CT and MR programs are subject to professional standards. Although NOT an all-inclusive list, the following examples are considered behaviors that violate the professional standards of the CT and MR programs:

1. Unprofessional conduct, including but not limited to violations of confidentiality; failure to show respect for patient, significant others, peers, staff, and instructor
2. Dishonesty, including but not limited to stealing from the College or a clinical agency; plagiarism of papers; cheating on exams; unauthorized possession of examinations; signing or clocking in or out for another student, etc.
3. Disobedience or noncompliance with clinical expectations
4. Failure to pass clinical competencies
5. Failure to maintain appropriate behaviors and clinical competency already demonstrated or learned, while incorporating new skills and theory
6. Failure to improve unsatisfactory clinical performance after counseling
7. Gross negligence in performance of duty that may cause physical or emotional jeopardy to a patient
8. Failure to report immediately a patient-care error to the clinical instructor and/or responsible staff nursing personnel
9. Absences accrued, in accordance with program attendance policy
10. Being under the influence of alcoholic beverages, drugs that impair judgment, or illegal drugs while in the clinical setting (see Appendix C)
11. Fraudulent or untruthful charting in a medical record
12. Release of privileged information
13. Inappropriately using the internet in the laboratory or clinical setting

14. Clocking in to be paid by your employer while in clinical in the student role is cause for immediate dismissal from the program. In your student role, you are allowed to participate in several activities that you would not be allowed to do in your employed role.
15. The clinical site has barred (exclude or except) you from attending their facility.
16. Radiating self, patient, or anyone without a written physician's order
17. Radiating self, patient, or anyone *unnecessarily* to obtain practice or a competency
18. Failure to perform safely may lead to immediate removal from clinical assignments with a grade of "F", "U," or "Administrative Withdrawal" at the discretion of the instructor.
19. Failure to follow the Code of Ethics for the profession
20. Failure to follow the practice standards of the profession

### **Process for Dismissal**

- Student is informed of dismissal by the appropriate instructor(s).
- Student signs instructor's written report of the significant events, attaching a statement if desired.
- When the student is removed from the program, the grade for the clinical course will be posted as an administrative withdrawal.
- Student may request a hearing with the program director.
- Student may appeal the grade, following the policies outlined in the College catalog.

### **Zero-Tolerance Guidelines**

Yavapai College has a Zero Tolerance for Threats and Disruptive Behavior policy (YC Policy 2.26).

Any CT or MR certificate program student engaging in the following behaviors is subject to immediate dismissal from classes and disciplinary action as described in the Yavapai College *Student Code of Conduct* (<https://www.yc.edu/v5content/student-services/codeofconduct.htm>) and the *Yavapai College Computed Tomography and Magnetic Resonance Certificate Programs Student Handbook*.

1. Intentionally or recklessly causing physical harm to any person on the campus or at a clinical site, or intentionally or recklessly causing reasonable apprehension of such harm.
2. Unauthorized use or possession of any weapon or explosive device on the campus or at a clinical site.
3. Unauthorized use, distribution, or possession of any controlled substances or illegal drug for any purpose (i.e., distribution, personal use) on the campus or at a clinical site.
4. Any misconduct covered by the Yavapai College *Student Code of Conduct* (<https://www.yc.edu/v5content/student-services/codeofconduct.htm>).

### **Name Badges**

Name badges are an essential part of a student's uniform. Students who damage or lose their name badges should notify their security for a replacement.

### **Clinical Placement**

In the clinical setting, students will have an opportunity to apply theory to practice under supervision. Clinical placements can be in locations throughout the state and *only at those clinical facilities with whom Yavapai College's CT and MR certificate programs have clinical-affiliation agreements*. Clinical assignments are scheduled during the weekday between 5 a.m. and 7 p.m. The clinical instructor will determine the starting time of a student's shift.

### **Weekly Hour Limit**

Students may not exceed a combined clinical and didactic schedule of 40 hours per week unless such scheduling is voluntary on the student's part.

## **Clinical Make-Up Time**

Absences must be made up before the end of the semester in which they occur. Make-up time is scheduled at the discretion of the clinical instructor with permission of the clinical coordinator so as not to exceed 40 hours per week unless such scheduling is voluntary on the student's part.

## **Injury or Illness in the Clinical Setting**

Program and clinical personnel must be notified immediately in the event of a student's illness or injury requiring medical attention. The College and clinical-education settings are not responsible for the student's medical expenses. This includes any activity that results in adverse consequences to patients or the student. Additionally, the student must comply with the incident-protocol procedures of the clinical-education setting.

Students who have been exposed to a communicable disease in the clinical setting must report the exposure immediately to their clinical instructor and YC Clinical Coordinator.

If a student has a prescribed restriction on physical activity, a physician's written directive must be provided to the clinical instructor and the YC Clinical Coordinator.

Students who sustain an injury or have an accident while in clinical are to notify their clinical instructor and the YC Clinical Coordinator immediately. Students must complete the accident/injury report for the facility where the incident occurred and the Yavapai College Accident/Incident form (<https://www.yc.edu/v5content/human-resources/docs/forms/accident-incident-report-02-19-2013f.pdf>). The completed form is to be submitted to the Radiology Department instructional support specialist within 24 hours.

## **Personal Conversation Standards**

- Students should avoid personal conversations with co-workers in the presence of patients.
- Students must not use profanity or profane gestures anywhere on the grounds of the clinical-education setting.
- Students should not engage in or listen to negativity or gossip. Listening without acting to stop it is the same as participating.

- Students should show respect by not interrupting or having “side” conversations when someone is speaking.
- Students should not make negative comments about co-workers or engage in any discussion regarding criticism of a physician, perceived workplace difficulties or job dissatisfaction among clinical education setting personnel.
- Students should not discuss results of exams with patients.
- Students should keep the lines of communication open and not react defensively.
- Students are representatives of the Yavapai College CT and MR certificate programs and are expected to cultivate a relationship of mutual respect with the employees in a clinical-education setting.
- Students can receive training on patient/customer satisfaction programs offered by the clinical institutions. Students are expected to follow the guidelines of these programs.

### **Cell Phones and Texting**

Yavapai College is committed to providing a quality learning environment. All cell phones must be placed in a non-audible mode while in classrooms, clinical assignments, computer labs, the library, the Learning Center, and testing areas. Cell phones must be used outside these facilities.

Cell phones may not be used to make or answer calls, to text, or to web browse in the classroom or clinical assignments. If students are found leaving the classroom or clinical assignment to answer cell phone calls, this policy may be reconsidered and changed to a “no cell phone” policy. Students should check messages during designated breaks. Cell phones should be turned off and put away during an exam.

### **Student Course Evaluations**

Students will complete evaluations each semester regarding the effectiveness of faculty, courses, clinical instructors, and clinical-education sites. The results are summarized by the program director and, if statistically valid, are shared with various communities of interest in the college and clinical education settings. Results can be discussed at advisory board or faculty meetings. Finally, feedback is gathered and assessed to assist with program improvements.

## **Health Guidelines**

### **Physical Requirements**

It is essential that students be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift and/or reposition patients, stand for several hours at a time, and perform bending and twisting activities. Students will be required to transport patients on gurneys and in wheelchairs, move heavy equipment throughout the clinical site, and must be physically capable of performing CPR in an emergency situation. A standard guideline assigned to weight-lifting capability is 50 pounds; however, students will encounter situations requiring them to lift and manipulate greater than 50 pounds.

It is advisable that students consult with their physicians prior to the start of this program and determine their ability to perform the necessary job requirements. Students who have a chronic illness or condition must be capable of implementing safe, direct patient care while maintaining their own current treatments or medications.

The clinical experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients' lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program.

### **Immunizations**

Students should submit copies of their immunization records with their original applications and retain the originals for their own files. The Radiology Department is unable to provide copies of these records to replace lost originals.

Students are responsible for remaining in compliance with all mandated immunizations and immunization records, as required by their clinical site. Immunization records and updates are to be submitted to their CastleBranch accounts.

All immunization records must include the student's name, the name and signature of the healthcare provider giving the immunization, and the date.

## Recommended Immunizations

1. **MMR** (measles/rubeola, mumps, rubella)

- 2 vaccinations; **or**
- positive antibody titer for all 3 components (lab report required)

2. **Varicella** (chicken pox)

- 2 vaccinations; **or**
- positive antibody titer (lab report required)

3. **Tetanus, Diphtheria & Pertussis (TDaP)**

Provide documentation of a TDaP vaccination within the last 10 years. Students with a TDaP older than 10 years or without proof of a current TDaP will need to get a TDaP booster. The renewal date will be set for 10 years from the administered date of the booster. *Optional:* For this requirement, a vaccination record more recent than 9 years is recommended.

4. **Tuberculosis (TB Skin Test)**

One of the following is required before beginning the program:

- 2-step TB skin test within the past 12 months; **or**
- T-Spot Blood Test (lab report required); **or**
- QuantiFERON Gold blood test (lab report required); **or**
- If positive results, provide a clear chest X-ray (lab report and an annual statement signed by a health professional confirming that the student does not have active tuberculosis are required).

The renewal date will be set for 1 year for negative tests and 2 years for chest X-rays. The TB test or chest X-ray must be renewed prior to the semester start if the expiration date occurs while a semester is in progress.

If testing expires between January 1 – May 15, renewal will be set for January 1 on/prior to expiration.

If testing expires between May 16- July 31, renewal will be set for May 1 on/prior to expiration.

If testing expires between August 1– December 31, renewal will be set for August 1 on/prior to expiration.

**For TB test renewal**, one of the following is required:

1-Step TB Skin Test; **or**

T-Spot Blood Test (lab report required); **or**

QuantiFERON Gold Blood Test (lab report required); **or**

If positive results, provide a clear chest X-ray (lab report and an annual statement signed by a health professional confirming that the student does not have active tuberculosis are required)

**5. Hepatitis B**

- vaccine series; **or**

- positive antibody titer (lab report required)

**6. Influenza**

Each season there are new strains of flu, which requires the production of a new vaccine to cover them. The flu “season” generally runs from September through March. Students should wait to get a flu shot until the new vaccine becomes available in the fall.

**7. COVID-19 Vaccine**

1. Provide proof of two-dose vaccination of Pfizer-BioNTech or Moderna Vaccine.  
OR

2. Provide proof of one dose vaccination of Johnson & Johnson’s Janssen vaccine.

3. Also, provide proof of a booster dose if there has been sufficient interval (5 or more months) since your initial vaccination.

4. If applicable, provide a copy of your completed exemption form noting that by declining the Vaccine, you continue to be at risk of acquiring COVID-19. Please note that a completed exemption form does not guarantee clinical or simulation placement and may result in required removal from the clinical course, resulting in a possible incomplete, withdrawal, or failure of the program of study.

Please be aware that even though YC may approve a student exemption, the clinical facility has final say over the exemption policies and procedures and may require additional information, and/or not approve any particular student exemption. In the event of a changed vaccine requirement or refusal to accept an exemption request, YC will use reasonable efforts to find another placement one time, but such alternative placement may not be possible, resulting in an inability to complete the required clinical course and program of study.

## **Infectious Disease**

Students are at risk for contracting infectious pathogens due to occupational exposure to blood or other potentially infectious materials. Prior to scheduled clinical experiences, all students will receive instruction on universal precautions and risk-reduction methods for exposure to substances with the potential for creating a hazard in the healthcare setting. Universal precautions are infection-control guidelines developed by the Center for Disease Control that are designed to protect healthcare workers and prevent skin and mucous membrane exposure during contact with patients' blood and body fluids. Students must strictly adhere to universal precautions including the appropriate use of hand washing, protective barriers, and care in the use and disposal of needles and other sharp instruments.

## **COVID-19 Information**

For up-to-date information about the COVID-19 pandemic and the steps that Yavapai College is taking to ensure the safety of its students, faculty, and staff, see <https://www.yc.edu/v6/college-police/covid-19/reentry/>.

## **Safety**

### **Administration of Contrast Media**

Students are not allowed to administer contrast media or any other pharmacological agent. Students are allowed to draw up contrast and prepare a site for injection only under the supervision of a qualified practitioner and in accordance with the department policies of the clinical-education setting. Students may perform the venipuncture only if it is considered part of their routine duties as an employee of the facility.

### **Dosimetry Monitors**

Dosimetry monitoring devices must be worn by CT students in clinical-education settings at all times, especially when the student is performing a radiological procedure. Failure to comply with this policy will result in a student being removed from the radiation area.

## **Holding Patients**

Students are restricted from holding patients and equipment during radiation exposures. Individuals (i.e., qualified practitioners, family members assisting with the procedure) holding patients or equipment for procedures should be provided with adequate shielding and should be positioned so that no parts of their bodies are exposed to the primary radiation beam. To assist in reducing exposure, the student shall restrict the beam with close collimation to the area of interest. Pregnant women or women trying to become pregnant should not hold. Persons under the age of 18 years of age should not hold.

## **Shielding**

Shielding involves the use of protective barriers. Students are required to shield all patients. Safe practice standards also include the requirement that all female patients of childbearing age must be questioned regarding the possibility of pregnancy. This information should be documented according to the policy of the clinical-education site.

## **Radiation Safety Procedures**

The Yavapai College CT certificate program is committed to an effective radiation protection program. The ultimate goal of safe radiation practices is to eliminate unnecessary exposures of radiation and to reduce all exposures to levels that are “As Low As Reasonably Achievable” (ALARA). The ALARA principle is a cornerstone of the Arizona Department of Health Services Bureau of Radiation Control as well as the Nuclear Regulatory Commission (NRC).

Students will adhere to proper radiation safety practices consistent with clinical site policies and the scope of practice in radiology to include the following:

- Students should abide by the “As Low As Reasonably Achievable” (ALARA) concept at all times.
- Students should employ the cardinal principles of radiation protection:
  - a. Distance
  - b. Time
  - c. Shielding
- Students are to use monitoring devices in the clinical-education settings at all times. Dosimetry monitors must be exchanged as designated by the clinical-education site.

- Students are to stand behind the lead-lined control area of a radiographic room when making an exposure.
- All doors leading into a CT gantry room from a public corridor are to be closed prior to making an exposure. Observe caution signs and safety interlock equipment.
- Review exposure records and reports.
- Adhere to the program's Pregnancy Policy (see "Program Policies").
- Shield all patients in their reproductive years.
- Screen all female patients of childbearing age regarding the possibility of pregnancy.
- Students should not hold or support a patient during exposure.
- A lead apron should be worn or a mobile lead screen used, when available, for protection. Students should stand as far from the patient and tube as possible.

## **MRI Safety Screens**

Students may assist technologists with the transport of patients to various areas of the imaging department to include MRI. Students will receive an MRI safety screen at their initial orientation at their place of employment. Students who do not meet the screening safety criteria for MRI exams will not be permitted in the MR department.

## **Appearance**

### **Dress Code**

The Yavapai College CT and MR certificate programs promote a uniform dress code established to maintain a level of professionalism, hygiene, and identification. Students are expected to dress and groom in a manner acceptable and appropriate to the professional environment of both the school and clinical-education setting.

### **Clinical-Education Dress Code**

Students are required to meet the appropriate dress codes of the clinical-education site. Students are encouraged to appear conservative in dress without excessive jewelry or makeup, and to pull long hair back so that it does not fall onto patients while working on them. Student name badges must be worn with clips attaching the name badge to the collar. Lanyards are not allowed as they may swing forward and interfere with patient care. The uniform must fit properly, and be clean and pressed at all times. Tattoos may

be considered offensive or inappropriate and must be covered. Chewing gum during clinical assignments is not permitted.

## **Personal Hygiene**

Bathing and use of unscented deodorant before arriving at clinical-education sites is required. Perfume, after-shave, and other fragrant products may not be worn in clinical settings. They are potentially harmful to people with respiratory disease, allergies, nausea, and other health problems.

Hair must be well-groomed, clean and controlled, and off the collar. Moustaches and beards must be clean, well-groomed, and trimmed short. No artificial nails are permitted. Fingernails must be kept short and well-manicured. Pale and neutral nail polish may be worn if not chipped or cracked. Nail polish is prohibited in operating rooms and labor and delivery area.

## **Program Policies**

### **Student Supervision**

#### **Direct Supervision**

Students must be directly supervised by a qualified practitioner who: (1) reviews the procedure in relation to the student's achievement; (2) evaluates the condition of the patient in relation to the student's knowledge; (3) is present during the procedure; and (4) reviews and approves the examination. Also, the practitioner remains physically present during the procedure and approves the exam and/or any images produced. Portable examinations and procedures in surgery must be performed under direct supervision.

#### **Repeat Exams**

A qualified practitioner is present during student performance of a repeat of any unsatisfactory exam.

#### **Indirect Supervision**

Indirect supervision is provided by a qualified practitioner who is immediately available to assist students regardless of the level of student achievement. "Immediately available" is interpreted as the physical presence of a qualified practitioner adjacent to

the room or location where the procedure is being performed. This availability applies to all areas where ionizing radiation equipment is in use. Students may **not** assume the responsibilities or take the place of professional staff.

### **Pregnancy Policy**

In compliance with the NRC Regulatory Guide 8.13 "Instruction Concerning Prenatal Radiation Exposure," if a student becomes pregnant it is her right to declare or not to declare her pregnancy. Declaration of pregnancy is completely voluntary. If a student decides to declare pregnancy, she is encouraged to inform the Program Director of the pregnancy as soon as possible. In the absence of any voluntary disclosure of pregnancy, students are not considered to be pregnant. If the student elects to inform the program director, she must do so in writing. The program is committed to maintaining a high quality of academic and clinical integrity for the pregnant student. The pregnant student will not be placed at an academic or clinical disadvantage due to pregnancy, and the student is given the option to continue the program without modification. The student may withdraw the declaration at any time in writing.

A written declaration should include:

- Student's name
- Student's signature
- Month and year of conception
- Estimated delivery date

The pregnant student will be issued a fetal badge that must be worn at the waist with or without an apron. The pregnant student will receive counseling regarding fetal radiation-protection practices and be provided a copy of the NRC Regulatory Guide 8.13, "Instruction Concerning Prenatal Radiation Exposure." The student will be monitored at the prescribed lower-dose limit until giving birth and/or withdrawing her declaration.

The Program Director will monitor the student's fetal radiation dosage on a monthly basis. The lower dose limit for a declared pregnancy will remain in effect until the student gives birth or provides written notification to withdraw her pregnancy declaration.

If a student has healthcare limitations related to her pregnancy, the student must provide her clinical instructor a physician's written directive regarding her status.

If class/clinical hours are missed, the student must coordinate with the class/Program Director regarding absences.

Upon returning to school after delivery, a physician's written release must be submitted to the Clinical Coordinator or Program Director.

Certain clinical situations/diagnoses may pose a health risk. The pregnant student assumes the responsibility for safeguarding her health, and the health of the unborn child.

### **Nuclear Regulatory Commission (NRC) Guidelines for Pregnancy**

The NRC regulations on radiation protection are specified in Title 10, Part 20 of the Code of Federal Regulations, "Standards for Protection Against Radiation," and Section 20.1208, "Dose Equivalent to an Embryo/Fetus," which requires licensees to "ensure that the dose to an embryo/fetus during the entire pregnancy, due to occupational exposure of a declared pregnant woman, does not exceed 0.5 rem (5.0 mSv)."

A declared pregnant woman is defined in Title 10, Part 20 of the Code of Federal Regulations, 20.1003, as a woman who has voluntarily informed her employer, in writing, of her pregnancy and the estimated date of conception.

NRC Regulatory Guide 8.13 "Instruction Concerning Prenatal Radiation Exposure" (Draft was issued as DG-8014), Revision 3, June 1999:

<http://www.nrc.gov/docs/ML0037/ML003739505.pdf>

Section 20.1208, "Dose Equivalent to an Embryo/Fetus"

<https://www.nrc.gov/reading-rm/doc-collections/cfr/part020/part020-1208.html>

### **Appeal Process**

The CT and MR certificate programs' student due-process procedure follows the institutional policy 3.16, "Student Appeal of Academic or Instructional Decisions by Faculty."

Students must represent themselves in the appeal process. Issues that may be appealed include, but are not limited to, assignment of grades and course requirements. Students reserve the right not to participate in due process as well. Please refer to the policy link:

<https://www.yc.edu/v5content/policies/docs/300as/316appealfacultydecision.pdf>

## **Policy**

A student may appeal an academic or instructional decision by faculty if s/he deems the decision to be made in error. The appeal must be made in a timely manner in accordance with established procedures.

## **Procedure**

A student may only appeal a decision that affects him/her directly and must represent themselves in the appeal process. The appeal of an academic or instructional decision requires documentation that the decision was incorrect.

1. The first step in the appeal process is for the student to contact the faculty member who made the academic or instructional decision. This contact must be made within 10 business days of the official notification date of the decision. For appeals concerning a final grade, official notification is considered to be the date the grade is posted to the student's permanent record.
2. In the event the faculty member and student are unable to reach a mutual agreement within 10 business days, the student may then appeal to the appropriate Dean or designee. The appeal to the Dean or designee must be made within 10 business days in writing using the official form, "Academic or Instructional Decision Appeal to the Dean." All documentation supporting the reason for the appeal must be provided at the time the appeal is submitted. This appeal must succinctly describe the issues involved, evidence that an error was made, and any relevant information. Missing, incomplete or erroneous information may cause the appeal to be rejected.
3. The Dean or designee will review the student's appeal and make a decision based on the documentation provided by the student, the faculty member, and other relevant information that may include meetings with appropriate individuals. The Dean's or designee's investigation and decision must be concluded within 10 business days of the date the student appealed the decision to the Dean or designee will provide written documentation of the decision to the student and faculty member.
4. In the event the student is dissatisfied with the decision of the Dean or designee, a further appeal may be made to the Vice President for Instruction and Student Development or designee. The appeal must be made in writing within 10

business days of the date the student received notification of the results of the appeal to the Dean. This formal, written appeal must relate only to the original decision that is being appealed. No additional claims or issues will be included or addressed in the review of the appeal.

5. The Vice President for Instruction and Student Development or designee will conduct a formal review of the appeal as presented by the student, including review of relevant policy, review of information provided by the faculty member, and review of the decision by the Dean.

The formal review and decision by the Vice President for Instruction and Student Development or designee must be completed within 10 business days of the receipt of the student's written appeal. The decision must be communicated in writing to all involved parties. The decision of the Vice President for Instruction and Student Development or designee is considered final.

### **Non-Academic Complaints**

The CT and MR certificate programs adopt and follow the Yavapai College policy for Non-Academic Complaints as listed on the Student Development website and the Student Code of Conduct.

Student Development:

<http://www.yc.edu/v5content/student-services/nonacademic.htm>

Student Code of Conduct:

<https://www.yc.edu/v5content/student-services/codeofconduct.htm>

### **Readmission to the Program**

The CT and MR certificate programs accept applicants twice per year in the fall and spring semesters. Students who are unable to complete the semester or fail to successfully complete a course will be dropped from the program. Students may apply for readmission to the program but will be denied readmission if the cause for withdrawal or failure was due to safety concerns of any nature, breach of patient confidentiality, behavioral issues, and/or code of ethics violations.

## **Appendix A**

### **American Registry of Radiologic Technologists (ARRT)**

#### **Professional Standards**

Radiologic technology students are advised that the practice of radiologic technology in the state of Arizona is regulated by the provisions of the Arizona Medical Radiologic Technology Board of Examiners statutes and rules.

In addition to the Yavapai College Student Code of Conduct, CT and MR program students are expected to adhere to the standards of professional conduct as outlined by the American Registry of Radiologic Technologists (ARRT) and the American Society of Radiologic Technologists (ASRT).

#### **ARRT Standards of Ethics**

<https://www.arrt.org/docs/default-source/Governing-Documents/arrt-standards-of-ethics.pdf?sfvrsn=10>

## **Appendix B**

### **Screening for Use of Alcohol and Drugs Policy and Procedure**

Drug testing is standard procedure for the CT and MR programs. The first drug test will be at the student's expense. Any subsequent "for cause" drug testing will be done at the program's expense. When students are informed that they are subjects of "for cause" drug testing, they will be provided an appropriate form and a list of local laboratories that they can utilize. The drug testing must be completed by the end of that business day.

In 2010, Arizona voters approved the Arizona Medical Marijuana Act (Proposition 203), a state law permitting individuals to possess and use limited quantities of marijuana for medical purposes. **Because of its obligations under federal law, however, Yavapai College will continue to prohibit marijuana possession and use on campus for any purpose.** Under the Drug Free Workplace Act of 1988, and the Drug Free Schools and Communities Act of 1989, "...no institution of higher education shall be eligible to receive funds or any other form of financial assistance under any federal program, including participation in any federally funded or guaranteed student loan program, unless it has adopted and has implemented a program to prevent the use of illicit drugs and abuse of alcohol by students and employees." Another federal law, the Controlled Substances Act, prohibits the possession, use, production, and distribution of marijuana for any and all uses, including medicinal use. This law is not affected by the passage of the Arizona Medical Marijuana Act.

**Because Yavapai College could lose its eligibility for federal funds if it fails to prohibit marijuana, it is exempt from the requirements of the Arizona Medical Marijuana Act.** Therefore, Yavapai College will continue to enforce its current policies prohibiting the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance on its property or as part of any of its activities. Students who violate Yavapai College policy prohibiting the use or possession of illegal drugs on campus will continue to be subject to disciplinary action, up to and including expulsion from school and termination of employment. Please refer to the Yavapai College Student Code of Conduct: <https://www.yc.edu/v5content/student-services/codeofconduct.htm>.

Intoxicated/impaired behaviors that are disruptive to the learning process violate the Yavapai College Student Code of Conduct (<https://www.yc.edu/v5content/student-services/codeofconduct.htm>). Also, a student in a clinical assignment who is under the influence of alcohol or drugs that impair judgment poses a threat to the safety of

patients. For these reasons, evidence of use of these substances, documented by positive drug and/or alcohol screening tests, will result in immediate withdrawal of the student from the program. In the event of an appeal, Yavapai College will make every effort to expedite the appeal process and assure the student of fundamental fairness.

### **Procedures**

- **Preclinical Drug Screening:** Students will be informed of this procedure on screening for use of alcohol and drugs prior to admission to the program, and will be required to sign and return a statement to the department indicating their understanding of the procedure.
- All students may be required to submit randomly to a urine drug screen at the discretion of the Program Director.
- Students will be advised of the procedure to follow to complete the urine drug screening prior to the beginning of clinical experiences.
- The cost for “for cause” drug screening is at the program’s expense.
- Students cannot begin clinical experiences until the test results are available.
- Students receiving negative drug screens or positive screens due to permissible prescriptive drugs will be permitted to begin/continue clinical experiences. In the latter case, medical review and documentation may be required.
- Students testing positive for illegal substances or for non-prescribed legal substances will be dismissed from the program. See “Positive Screening Test.”

### **Drug Testing for Cause**

1. The student will be asked to submit to an alcohol or drug screening test at college expense if the faculty, clinical instructor, or staff at a clinical facility where the student is assigned:
  - a. have reasonable cause to suspect that the student is mentally or physically impaired due to alcohol or substance abuse immediately prior to or during the performance of his/her clinical duties; or

b. perceives the odor of alcohol or observes physical signs and/or behavior including, but not limited to, slurred speech, unsteady gait, confusion, or inability to concentrate.

2. Student will sign a consent form and have a blood or urine specimen collected immediately according to current procedure.
3. The student will be removed from clinical assignments, pending results of the test(s).
4. Test results will be sent to the Radiology Program Director or designee.

### **Positive Screening Test**

1. If the result of the drug screening test is positive and the student provides documentation of a prescription for the substance, the director and/or designee will consider the case in collaboration with the student and his/her healthcare provider. Each student will be asked to disclose prescription and over-the-counter medications he/she is taking at the time of testing.
2. If the results indicate a positive drug screen for alcohol, illegal substances, or medications not prescribed for that individual, the director and/or designee will withdraw the student from the program.
3. Students who are licensed healthcare professionals in the state of Arizona are required to self-report their positive screening results to their respective licensing agencies and will provide the Radiology program director with written documentation of agency notification.

### **Negative Screening Test**

1. If the results of tests indicate a negative drug screen for alcohol or drugs, the student shall meet with the Radiology program director or designee within two working days of the test results to discuss the circumstances surrounding the impaired clinical behavior.
2. If the indicator was behavioral, consideration must be given to a possible medical condition being responsible for the symptoms. A medical referral for evaluation, with a report provided to the program director or designee, may be required.

3. Based on the information presented in the meeting, and a medical report if required, the program director or designee will make a decision regarding a return to the clinical setting.
4. The student must make up clinical absences incurred for testing.

### **Confidentiality**

All test results will be sent to the program director or designee and will be handled confidentially. The program director or designee may consult with college deans, faculty, and others for appropriate action and follow-up.

### **Inability to Submit to a Screening Test in a Timely Manner or Refusal to Submit to a Screening Test**

If a student in the program is unable to submit to a drug or alcohol screening test in the designated time frame or refuses to submit to screening, the student will be removed from the program.

Appeals are made to the division dean and then to the Vice President of Instruction and Student Development. Please refer to the Yavapai College Student Code of Conduct (<https://www.yc.edu/v5content/student-services/codeofconduct.htm>).

# FORMS

## Student Agreement Form

Each student enrolled in the Yavapai College CT and MR programs is responsible for reading, understanding, and complying with the guidelines presented in the Student Handbook.

*A student's signature on the Student Agreement Form represents a contractual agreement between the Yavapai College CT and MR programs and the student.*

Failure to abide by the guidelines set forth in the Student Handbook may result in disciplinary action, including mandatory withdrawal from the program.

### Student Agreement Form

All unconditionally accepted students in the Yavapai College (YC) CT and MR programs are expected to sign and abide by the stipulations spelled out in the Student Agreement Form, and to abide by all College policies and program standards as written in the Student Handbook.

#### Agreement

In consideration of the granting of admission to Yavapai College's CT or MR program, I the undersigned, understand and agree to the following:

- It is agreed that I have been provided with a personal copy of the Student Handbook. I have read the handbook, understand its contents, and have had my questions answered.
- It is agreed that I have been informed of the existence and location of copies of the Program Master Plan, located in the office of the Program Director.
- It is agreed that I understand all program requirements.
- I understand that graduation from the CT or MR program is contingent upon successful completion of all clinical education and academic course work.
- I understand that violations which appear on the criminal background check may result in denied access to a clinical site and therefore inability to complete the program.
- I understand that students may be dismissed from the CT and MR programs for:
  1. Failure to adhere to program requirements, and breaching the rules and regulations of Yavapai College or a clinical affiliation site.
  2. Failure to maintain the required academic standards.

**COVID 19 STUDENT WAIVER OF LIABILITY AND HOLD HARMLESS AGREEMENT**

**THIS IS AN IMPORTANT DOCUMENT THAT WAIVES YOUR LEGAL RIGHTS**

I, \_\_\_\_\_, understand that my voluntary participation in certain programs or aspects of campus life at Yavapai College may increase my risk of exposure to COVID 19 during the outbreak of COVID 19 in the community because it may not be possible to utilize face coverings or maintain social distancing while participating in the program, or due to the nature of the program, I may be exposed to individuals who have tested positive for COVID 19. These programs include, First Responder, ECE, FEC, PE, OLLI and Performing Arts programs, as well as athletic programs and living in YC Residence Halls. By voluntarily enrolling in and/or participating in these programs, I agree to comply with the following terms:

1. Assumption of risk. I am fully aware of the unusual risks involved and hazards connected with my continued participation in the programs or campus life activities described above during the COVID 19 outbreak. Potential symptoms of the COVID 19 virus include but are not limited to the following: fever, cough, shortness of breath, difficulty breathing, and other flu-like symptoms. COVID 19 may be deadly, particularly in certain patient populations including the immune compromised and the elderly. To minimize risk of exposure, I understand that I will be required to comply with regular temperature checks and not participate in any program or activity if my temperature exceeds 100.4, wear face coverings when possible, practice social distancing where possible, practice effective hand hygiene, stay home when displaying any COVID 19 symptoms, and self-report any positive test for COVID-19 to a College instructor. I further understand that despite these measures, continued participation in these programs could still be hazardous to myself and others, both known and unknown to myself, with whom I may have contact in or outside of the program or activity and for up to fourteen (14) days thereafter. I VOLUNTARILY ASSUME FULL RESPONSIBILITY FOR ANY RISKS OF OR PERSONAL INJURY, INCLUDING DEATH that may be sustained by me as a result of being engaged in the program or activity, WHETHER CAUSED BY THE NEGLIGENCE OF RELEASED PARTIES OR OTHERWISE.
2. Waiver and Release. To the fullest extent permitted by law, I RELEASE, WAIVE, DISCHARGE AND PROMISE NOT TO SUE the College and its board, officers, agents, employees, volunteers, successors and assigns ("Released Parties") from any and all liability, claims, and demands of whatever kind or nature, either in law or in equity, which arise or may hereafter arise from my participation in the program or activity whether caused by the negligence of the Released Parties. It is also understood College does not assume any responsibility for or obligation to provide financial assistance or other assistance, including but not limited to medical, health or disability insurance in the event of injury, illness, or death.

3. Indemnification. I further hereby AGREE TO INDEMNIFY AND HOLD HARMLESS the RELEASED PARTIES from any loss, liability, damage or costs, including court costs and attorney fees, that they may incur due to my participation in the College program or activity, WHETHER CAUSED BY NEGLIGENCE OF RELEASED PARTIES or otherwise.
  
4. It is my express intent that this Waiver of Liability and Hold Harmless Agreement shall bind the members of my family and spouse, if I am alive, and my heirs, assigns and personal representative, if I am deceased, and shall be deemed as a RELEASE, WAIVER, DISCHARGE AND PROMISE NOT TO SUE the above-named RELEASED PARTIES. I hereby further agree that this Waiver of Liability and Hold Harmless RELEASED PARTIES shall be construed in accordance with the laws of the State of Arizona.
  
5. IN SIGNING THIS RELEASE, I ACKNOWLEDGE AND REPRESENT THAT I have read this Waiver of Liability and Hold Harmless Agreement, understand it and sign it voluntarily as my own free act and deed; no oral representations, statements, or inducements, apart from the foregoing written agreement, have been made; I am at least eighteen (18) years of age and fully competent; and I execute this Release for full, adequate and complete consideration fully intending to be bound by same.
