

Radiologic Technology Program Overview

The Associate of Applied Science Degree in Radiologic Technology is a 24-month program (six sequential semesters including summers) that prepares students for entry-level positions as radiographers.

The program starts once per year in the fall semester. Students must complete 20

credit hours of prerequisite courses and 58 credits of major core courses.

The curriculum is designed in accordance with the Radiography Curriculum established by the American Society of Radiologic Technologists. Academic courses include anatomy and physiology, radiographic positioning, radiation physics, principles of radiographic exposure, and other specialized topics. The program is designed around a model of classroom and laboratory instruction integrated with hands-on experience in a clinical setting that provides a thorough educational foundation and professional preparation to enter the workforce as an independent practitioner upon graduation.

The Radiologic Technology program is accredited by the Higher Learning Commission of the North Central Association of Colleges and Universities. The program is also accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), 20 N. Wacker Drive, Suite 2850, Chicago, IL 60606-3182, (312) 704-5300, www.jrcert.org.

Graduates of the program are eligible to:

- Receive an AAS degree in Radiologic Technology
- Challenge the American Registry of Radiologic Technologists examination (ARRT)
- Apply for an Arizona license to practice radiography CRT (Certified Radiologic Technologist)
