A Shot of Reality Reviews:

“First and foremost, THANK YOU so much for your excellent program yesterday. We loved it, and the students did too! I know having virtual programming is not ideal, but you guys truly rocked it! Our Counseling Center staff really thought it was excellent too.” - Lauryn Moore, Director of New Student Programs- Utica College

“We loved having A Shot of Reality on our campus! They were excellent, engaging performers and kind, flexible people. Our students loved them, and we can't wait to have them back!” - Kendall Gross, Life University

"Shot of Reality is a favorite with the University of Pikeville; chalk-full of important and useful information. What is unique about the program is they don't harp the idea of don't drink; rather they focus on making the best decisions, especially if our students do decide to drink. They also work before the show to understand the culture of the campus, to learn about how our policies work, and incorporate those concepts into their performance. Their high energy, interactive show keeps the students focused, engaged, while getting the point across to be safe!” - Luke Kopp, University of Pikeville

“The performers were amazing! I had a great time and thought the information was so well done and very informative. I absolutely loved the performance!!” - Miranda Thomas Scurlock, Savanna College of Art and Design

“A Shot of Reality had our students (and me!) rolling in side splitting laughter but also learning helpful tips to make safe decisions related to alcohol. Many students came up to me or RA’s to tell us how much they enjoyed it– which is saying a lot of an alcohol education program!” – Donna Lee Sullins, Dalton State College

"We are glad that you enjoyed your experience here. The students once again rated your program as the best part of orientation. We appreciate how easy your company is to work with and hope you enjoyed the Doral.” - Andrew Fulton, Manhattanville College

"I just wanted to follow up on the "Shot Of Reality" program. The show went very well! The dean of students office really enjoyed the show along with the new incoming students. It was a great mix of educational information while having fun and laughing at the same time. I really appreciate all of the help with this event. The Orientation advisor was very happy with the event as well and sends her appreciation!” - Mark Millimet, Embry-Riddle Aeronautical University

"A Shot of Reality was great, it was exactly what we were looking for. Our first year experience students who were required to attend gave it rave reviews in their class, so much so that the instructor came down and told me how glowing the feedback was.” - Sterling Pingree, Coordinator of Student Activities, Husson University
"We really enjoyed the show. I would recommend you guys to anyone you need me to. I think the younger crowd definitely enjoyed it instead of the beat you upside the head preaching and teaching. Thanks once again for everything." - Ronald Moody, United States Navy

“I would like to express how entertaining Mike McLendon and Robyn Norris were. During their two presentations on 5 February 2013, on Naval Base Guam. I was quite impressed by their acting abilities and the way they interacted with their audience. The feedback from the sailors was very positive. They were a delight to watch and were very professional. I noticed they made a connection with their audience and I believe their message will linger in the minds of our sailors who attended this alcohol program. You have a wonderful team with these two!!" - Shawn Bentley, Naval Base Guam

"LOVE LOVE LOVE A shot of reality, Patrick/Bryce..so way cool! Thanks so much for arranging it for them to be here." - Boyd Jones, Winthrop University

"The guys were amazing! They were so funny and very skilled at simultaneously delivering an important message. I already recommended them to the head of the Office of Student Development for a potential "weeks of welcome" program or other entertainment event for students." - Jackie Ripepi, Iona College

"Shot of Reality was a huge hit! I am no longer on the Student Activities board on campus, but I am a part of Residence Life and we made a program to go to this event. It was an underlying suspicion that some people would leave after a while, but the seats were packed and it was a huge hit! :) Non-freshman and freshman alike really loved the program. Fun, Entertaining, and Insightful. It was definitely worthwhile." - Kimberly DeJong, Lakeland College

"I'd like to say that the "Shot of Reality" program was very effective in way of making students want to attend. Both of the main people in the program were hilarious. They got across the point that alcohol makes you want to do stupid and irresponsible things in a way that even most professors don't realize is probably the most effective way to put information into our heads as college students: humor. However, the thing that I found so impressive about this particular program in comparison to others that I've attended outside of Winthrop was not humor, but how they also gave us vital information about what actually happens when one drinks. I would certainly recommend they come back every year." - Student, Winthrop University

“A Shot of Reality had our students (and me!) rolling in side splitting laughter but also learning helpful tips to make safe decisions related to alcohol. Many students came up to me or RA’s to tell us how much they enjoyed it-- which is saying a lot of an alcohol education program!” - Donna Lee Sullins, Dalton State College

“They hit the target with the audience, no holds barred.” - Donald Singleton, Command Master Chief, Guam Naval Base
“This group is awesome! The students really enjoyed the performance/session. It is the best alcohol ed. Program I have EVER seen – and you know I’ve seen a lot!” - Donna Gustafson, Rose-Hulman Institute of Technology

"Hands down, one great show! I want to discuss about doing another show during alcohol awareness month." - Michael Dixon, Savannah College of Art and Design

"I thought I’d beat you to the punch and send you a message about Mission Improvable and A Shot of Reality. Both shows were outstanding! Using MI to hook the students into coming to A Shot of Reality was great too. Our drug and alcohol person was very impressed and was even introduced during the show!" - Mike Keegan, South Dakota School of Mines and Technology

“Students are still talking about him...we hope to see him again in the near future." - Josh Hulgan, Gillette College
